

# SHARK FIN

When cutting a partial header swath, such as point rows, the Lankota Shark Fin guides crop directly into the center of the feeder house. This ensures a smooth crop flow and prevents plugging or loss underneath the side draper belts. The Shark Fin prevents downtime and frustration. It fits on Case IH® and MacDon® Flex Drapers.

Reduce header grain loss and put more grain in the tank with Lankota's Grain Saver Brush Kits. The kit for Case IH® and New Holland® platform headers mounts using powerful magnets. The kit that fits Case IH® and MacDon® Flex Drapers is installed using self-tapping hardware. Lankota Brush Kits do not interfere with the operator's view of the head.
