# Kit Installation

## Refer to Figures

1. Remove the three of the four screws (shown) holding the radio cover to the ceiling of the cab.
2. Insert an M6 x 35 bolt through the middle hole of the bracket mount (LANMBJDS61), slide a spacer (LANMBJDS63) over the bolt and then thread it into the newly exposed hole.
3. Repeat for other two holes and tighten all bolts.
4. Attach the monitor mount (LANMBJDS62) to the bracket mount with the provided hardware.
  - The 2.5" bolt, nyloc nut and (1) washer form the hinge. Leave slightly loose.
  - The carriage bolt, wing nut and (2) washers clamp the monitor mount in place.
